

PINELLA

BRAIN / NERVE CLEANSE

PINELLA-BRAIN / NERVE CLEANSE is an herbal extract made from *Pimpinella Anisum*. It has been used by indigenous groups for hundreds of years.

Primary Use of PINELLA- BRAIN / NERVE CLEANSE:

- ELIMINATES TOXINS FROM BRAIN AND CENTRAL NERVOUS SYSTEM
- REDUCES BRAIN FOG

PINELLA is an integral component of a Lyme disease protocol developed by Wm. Lee Cowden, MD. Dr. Cowden and other health care professionals report that it is very effective in eliminating both man-made and biotoxins from both the brain and the central nervous system. Both patients and health care professionals also report that many times there is a significant reduction in brain fog, even after only one dose.

Some health care professionals have reported that PINELLA can be helpful in stopping the progression of or reversing disorders such as Alzheimer's by helping to detoxify aluminum and mercury from nerves in the brain.

Pharmacological studies were conducted at the University of Guayaquil in Ecuador. In an Anti-inflammatory Effect Study Nutramedix PINELLA inhibited inflammation by 51.2 %. It was compared with Pfizer's best selling and very toxic anti-inflammatory drug, Feldene (Piroxicam), which inhibited inflammation by 80% making PINELLA 64% as effective as Feldene as an anti-inflammatory. In another pharmacology study PINELLA was found to be as effective as a hepatoprotector (liver protector)

There are no known contraindications, no known side effects and no known interactions with other drugs when using Pimpinella Anisum products like Pinella. Toxicology studies were conducted on Nutramedix Pinella at the University of Guayaquil in Ecuador. No toxic effects were reported even when laboratory rodents received 51,600 times the equivalent human dose.
