

PARSLEY DETOX

PARSLEY DETOX is an extract produced from the leaves and stems of *Petroselinum crispum*. It is a short-lived perennial herb that is a member of the carrot family. Nutramedix utilizes a proprietary extraction and enhancement process that yields a highly bio-active product.

Primary Uses of PARSLEY DETOX:

- LIVER DETOX
- LYMPHATIC DETOX
- KIDNEY DETOX
- GROUND MATRIX DETOX
- ANTI-OXIDANT

The herb Parsley provides dietary calcium, iron, riboflavin, thiamine, carotenes, ascorbic acid, and vitamin A.1 and vitamin C. It is very effective in aiding detoxification of the liver, kidneys, lymphatic system and the ground matrix. PARSLEY DETOX is commonly used in conjunction with antimicrobials produced by Nutramedix like Samento, Quina, Banderol, Cumanda, Enula and Mora. Many health care professionals have reported that PARSLEY DETOX can be used in place of 5 detoxification remedies. In many cases a significant healing crisis (Herxheimer's reaction) can be dramatically reduced or eliminated by taking 10 drops of PARSLEY DETOX approximately every 10 minutes.

There are no known contraindications, no known side effects and no known interactions with other drugs when using PARSLEY DETOX. In 2006, toxicology studies were conducted on Nutramedix PARSLEY DETOX at the University of Guayaquil, Ecuador. No toxic effects were reported, even when laboratory rodents received 500 times the equivalent human dose.

Parsley has been traditionally used for:

- KIDNEY STONES
- URINARY PROBLEMS
- BREAST MILK DEFICIENCY
- HAIR LOSS
- HEART PROBLEMS
- ARTHRITIC PAIN
