

VERMELLA SLIM

Vermella Slim is an herbal extract made from the leaves of the *Gentianella alborosea* plant. It grows wild in Peru at an altitude of between 3500 and 4300 meters and has been used by tribal groups in that region for hundreds of years, as an appetite suppressant and metabolism enhancer.

Primary Uses of Vermella Slim:

- WEIGHT LOSS
- APPETITE SUPPRESSANT
- METABOLISM ENHANCER

In May 2005, a pharmacological study was conducted at the University of Guayaquil in Ecuador to determine the weight loss effect of Nutramedix Vermella. Vermella was determined to have a significant weight loss effect and has statistically the same weight loss effect as Hoodia gordonii - a cactus from South Africa primarily used to suppress appetite.

In March / April, 2006, a placebo-controlled clinical study was conducted in Guayaquil, Ecuador to determine the weight loss effect of Vermella. Preliminary results show that Vermella is effective for both weight loss and body fat reduction. A full report will be available in June 2006.

There are no known contraindications, no known side effects and no known interactions with other drugs when using *Gentianella alborosea* products like Vermella. In May 2005, toxicology studies were conducted on Nutramedix Vermella at the University of Guayaquil, Ecuador. No toxic effects were reported.

Some of the reported properties of *Gentianella alborosea* products like Vermella are:

- ANTIBACTERIAL
- ANTIDIABETIC
- CHOLAGOGUE
- CHOLERETIC
- DEPURATIVE
- DIGESTIVE
- FEBRIFUGE
- HEPATOPROTECTIVE
- HYPOCHOLESTEROLEMIC
- LIPOLYTIC
