

CONDURA COMFORT

FOR TEMPORARY RELIEF OF:

- HEADACHES
- MUSCULAR AND ARTHRITIC PAIN
- AND OTHER TYPES OF PAIN

PRODUCT DESCRIPTION

CONDURA is an extract produced from the bark of *Marsdenia condurango*, commonly known as condurango. **CONDURA** is most effective when used both sublingually and topically at the same time. Healthcare professionals using **CONDURA** report rapid relief of many types of pain, including muscular, arthritis, severe headaches, etc..

RESEARCH

Condurango, in gastric cancers, and in related ulceration, has relieved the pain, stopped the vomiting, and at times, prolonged life. It is recommended for pain and vomiting, as well as to slow the growth of suspicious tumor masses and the pain directly associated with tumor growths. If the disease has a tendency to producing painful cracks and fissures, *condurango* may be useful.

PATIENT REPORTS

"I recently had a terrible stomach muscle strain. I was in so much pain, I couldn't walk for almost 36 hours and **CONDURA** was the only product that alleviated the pain and helped me heal FAST!"

-Z.M.

"Debilitating cluster headaches had a hold of me for years. I struggled with pain to the point of nausea. Sometimes, I couldn't even see. Can't believe nobody ever told me about **CONDURA**. I started taking it about 4 months ago, and I haven't experienced those clusters since. **CONDURA** works."

-O.O.

SUGGESTED DOSAGE

Put 10 to 20 drops under the tongue and hold for at least two minutes before swallowing. Then apply topically using the number of drops necessary to cover the affected area. May be repeated several times per day.
