CUMANDA is an herbal extract made from the bark of the Campsiandra Angustifolia tree, found in South America. It has been used by indigenous groups in that region for hundreds of years. CUMANDA is very effective in treating the Borrelia burgdorferi bacteria and practitioners are now using it in conjunction with Samento to treat Lyme Borreliosis with co-infections. Lyme Borreliosis has been linked to hundreds of medical conditions. Many researchers and physicians believe that Lyme Borreliosis may be a factor in most chronic conditions. One of the most impressive benefits of CUMANDA is its antifungal action. Physicians report that it is effective in treating many difficult to treat fungi including Candida krusei, Candida albicans and Aspergillus niger, to name a few.

RESEARCH

In May 2005, pharmacological studies were conducted in laboratory rodents at the University of Guayaquil in Ecuador. In an Anti-inflammatory Effect Study the NutraMedix CUMANDA inhibited inflammation by 97%. It was compared with Pfizer’s bestselling and very toxic anti-inflammatory drug, Feldene (Piroxicam), which inhibited inflammation by 98%.

Allende, S, “Establishment of the potential anti-inflammatory effect of the product known as CUMANDA, originating from NutraMedix Laboratories, LLC, Florida.” Universidad de Guayaquil Department of Chemical Sciences 05/27/05

At the University of Guayaquil in Ecuador, NutraMedix CUMANDA was determined to be 86% as effective as aspirin as an analgesic.

PATIENT REPORTS

“Excellent for Lyme & tick borne co-infections! Feeling better than I do when on antibiotics with this stuff! It works!”

-D.V.

“CUMANDA is extremely effective for fighting fungal infections, and actually killed off the toe nail fungus I'd had for years! I can't say enough good things about this one! CUMANDA is one great herb that helps me the most with Lyme pain and inflammation.”

-K.F.

SUGGESTED DOSAGE

Put 1 to 30 drops in 4 oz. of water and wait one minute before drinking. Start with 1 drop twice daily, at least 30 minutes before meals, increasing slowly up to 30 drops twice daily.
