**NONI** is a tropical fruit that is grown in the Pacific Islands. It has been successfully used for over 2000 years in Polynesia to treat a variety of illnesses. The most beneficial **NONI** is grown organically in pollution-free volcanic soil. James Howenstine, MD, and other medical doctors report that the Nutramedix **NONI** extract can eliminate the symptoms associated with colds and flu within 3 to 4 hours. Physicians report that 30 ml (one ounce) of Nutramedix **NONI** extract is as effective as up to 8 liters or 8 quarts of **NONI** juice from other companies.

### RESEARCH

One study showed that the inhibition of inflammatory activity present in **NONI** juice was compared with that of commercial traditional non-steroidal inflammatory drugs such as aspirin, Indomethacin® and Celebrex®. **NONI** juice showed selective inhibition of COX enzyme activity in vitro and a strong anti-inflammatory effect comparable to that of Celebrex® and presumably without side effects.

The fruit juice of Morinda citrifolia (noni) contains a polysaccharide-rich substance (noni-ppt) with anti-tumour activity in the Lewis lung (LLC) peritoneal carcinomatosis model. It could activate peritoneal exudate cells to impart profound toxicity when co-cultured with the tumour cells, which suggested the possibility that noni-ppt may suppress tumour growth through activation of the host immune system.

### PATIENT REPORTS

“**NUTRAMEDIX NONI** is the best **NONI** I’ve ever used. NutraMedix is a small bottle but it actually is a better buy because you don’t have to drink it like a shot of liquor like you do with most **NONI** juices.”

-A.J.

### SUGGESTED DOSAGE

Put 15 to 30 drops in 4 oz. of water and wait one minute before drinking. Take twice daily (start with 15 drops adding two drops with each dose until you reach 30).
