

# CONDURA COMFORT

CONDURA is an extract produced from the bark of *Marsdenia condurango*, commonly known as condurango. Nutramedix utilizes a proprietary extraction and enhancement process that makes this product far more effective than any other condurango product available.

Primary Uses of Condura:

- PAIN RELIEF
- ANTI-INFLAMMATORY
- ANALGESIC

It is estimated that from 15% to 30% of the population of the United States, as many as 90 million people, are affected by chronic pain. Chronic pain disables more people than heart disease or cancer and the cost to the American public is astronomical. Medical expenses, absence from work and workers compensation exceeds 100 billion US Dollars a year.

Pharmaceutical pain relievers have many reported side-effects including gastritis, gastric ulcers, gastric bleeding, excessive somnolence, poor judgment, poor response time when driving cars, depression, constipation, liver toxicity, kidney toxicity, addiction potential. These side-effects have not been seen in condurango or CONDURA.

CONDURA is most effective when used both sublingually and topically at the same time. Health care professionals using CONDURA report rapid relief of many types of pain, including muscular, arthritic, cancer, severe headaches, etc.

Some of the other reported properties of condurango products like CONDURA are:

- CARMINATIVE
- TONIC
- HEMOSTATIC
- CHOLAGOGUE
- DIAPHORETIC
- DEPURATIVE
- ANTIULCERIC
- DIGESTIVE
- EMETIC
